# Stertil Koni Diamond Lift

Leading in heavy-duty lifting

Superior  
solutions  
by quality  
people

The Stertil Group offers its customers worldwide customized, technologically sophisticated solutions for their heavy-duty lifting requirements and dock equipment, including the best possible service from strong local partners. These superior solutions are conceived, developed and realized by a team of specialized professionals with unique experience. Thanks to its 'quality people', its total in-house production process and its international organization, Stertil is the world leader in the field of heavy-duty vehicle lifting systems.

#### Designed to be environmentally friendly

- Green lift containment which is 98% recyclable
- X-tremely low volume of bio-gradeable oil
- Coated with diamond guard for containment and protection

#### Designed for efficient, ergonomic use and wide range of applications

- Simple intuitive controls
- No electric below floor level
- Majority of components above floor level for easy service

#### Designed to meet or exceed all current specifications

- 32,000 lbs per piston lifting capacity
- Programmable maximum height limits
- Fluid detection and evacuation
- High load bearing, continuous trench covering
- Nitrated coating for durability
- No chains or sprockets for moveable unit
