## New High Capacity, Low Profile Multipurpose Adapter Enables Front & Rear Lifting with Two Mobile Columns

The new Stertil-Koni multi-purpose adapter is ideal for wheels free lifting, using only two mobile column lifts.

The new multipurpose adapter from Stertil-Koni can handle everything from heavy duty farm tractors to utility trucks, as well as cab and chassis vehicles. The product is available for shipment. ■

### About Stertil-Koni USA, Inc.

*Stertil-Koni, a brand of the Stertil Group, is the global market leader in heavy duty vehicle lifts – bus lifts and truck lifts – and is the preferred supplier to the world's leading companies in the truck and bus industries. Stertil-Koni's breadth of products meets all ranges of lifting needs and includes mobile column lifts, two-post, four-post, in-ground piston lifts, platform lifts, half-scissors and its innovative axle-engaging, in-ground, scissor lift configuration, ECOLIFT. Stertil-Koni is also installing DIAMOND LIFT across North America, a full rise telescopic piston lift designed to set new standards in precision heavy duty lifting. The DIAMOND LIFT is now also available in a "frame," version, engineered specifically for concrete foundations and ideal for replacement situations. Stertil-Koni USA is headquartered in Stevensville, Maryland. Stertil-Koni has production facilities in Europe in The Netherlands, and in the USA in Streator, Illinois.*

**Heavy duty vehicle lift leader**, Stertil-Koni has broken new ground again with the introduction of a high capacity multipurpose adapter, which, when used in conjunction with the company's mobile column lifts, enables "front and rear" vehicle lifting with only two mobile columns.

What's more, all lifting in this manner is "wheels free" -- providing busy technicians on the shop floor with complete access to the undercarriage of the vehicle, including wheels and tires.

The new Stertil-Koni adapter is ALI certified, demonstrating full compliance with recognized, applicable standards, and is rated up to 22,000 lbs. per adapter.

Noted Peter Bowers, technical sales manager for Stertil-Koni, "The new adapter presents a very flexible lifting approach. For example, it can easily handle vehicles in which ground clearance is not a key factor, such as U.S. Military Humvees."
